## Canadian Election Study, 2019, Phone Survey (CES 2019 Phone)

### *Étude électorale canadienne 2019*

Overview	
Type	Canadian Election Study
Identification	CES-E-2019-phone
Series	<p>The primary mandate of the Canadian Election Study is to provide a thorough account of the election, to underline the main reasons why people vote the way they do, to indicate what does and does not change during the campaign and from one election to another, and to highlight similarities and differences between voting and elections in Canada and in other democratic countries.</p> <p>The second mandate is to contribute to the development of scientific knowledge regarding the motivations of voters and the meanings of elections and election campaigns in democratic societies.</p> <p>The third mandate is to assemble a rich set of data about Canadians' attitudes and opinions on a wide variety of social, economic, and political issues, and to make that data publicly available to researchers in political science, sociology, economics, communications, and journalism.</p>
<b>Abstract</b> The 2019 Canadian Election Study was conducted to gather the attitudes and opinions of Canadians during and after the 2019 federal election. It continues the tradition of Canadian Election Studies started in 1965. There are 2 data files for the 2019 CES - online survey and phone survey.	
Kind of Data	Survey data
Unit of Analysis	Individuals

Scope & Coverage	
Keywords	Candidates, Debate, Election, Leaders, Media, Politics, Public Opinion, Votes, Voting
Topics	Election, Politics, Public Opinion
Time Period(s)	2019
Countries	Canada
<b>Geographic Coverage</b> Canada, Provinces	
<b>Universe</b> Canadian citizens and permanent residents, aged 18 or older	

Producers & Sponsors	
Primary Investigator(s)	Stephenson, Laura B, Western University Harell, Allison, Université du Québec à Montréal Rubenson, Daniel, Ryerson University Loewen, Peter John, University of Toronto
Other Producer(s)	Stephenson, Laura B , Western University Harell, Allison , Université du Québec à Montréal Rubenson, Daniel , Ryerson University Loewen, Peter John , University of Toronto
Funding Agency/ies	Social Sciences and Humanities Research Council of Canada (SSHRC)

## Sampling

### Sampling Procedure

The online sample for the 2019 Canadian Election Study was composed of a two-wave panel with a modified rolling-cross section during the campaign period and a post-election recontact wave.

### Weighting

Weight variables are provided; weights must be used to ensure that the data is representative of the population.<br />

- Weight\_CES -- Aggregate weight for CES respondents based on province (Q4) and phone type
- Weight\_PES -- Aggregate weight for PES respondents based on province (Q4) and phone type

## Data Collection

<b>Data Collection Dates</b>	Campaign period survey: start 2019-09-10 Campaign period survey: end 2019-10-20 Post-election survey: start 2019-10-22 Post-election survey: end 2019-11-21
------------------------------	--

<b>Data Collection Mode</b>	Computer assisted telephone interviewing (CATI)
-----------------------------	---

### Data Collection Notes

The sample comprised of 66% wireless telephone numbers and 34% landline telephone numbers.

<b>Data Collector(s)</b>	Advanis Inc.
--------------------------	--------------

## Accessibility

<b>Distributor(s)</b>	Canadian Opinion Research Archive
-----------------------	-----------------------------------

### Citation Requirements

Publications based on CES data collection should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications.

## Rights & Disclaimer

### Disclaimer

The original collector of the data and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

# Variables Description

**Dataset contains 278 variable(s)**

## File : CES2019PhoneSurvey

### # sample\_id: Sample unique identifier

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 18-117856] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-] [Mean=59991.173 /-] [StdDev=36270.42 /-]
<b>Literal question</b>	Sample unique identifier

### # survey\_end\_CES: Date and time when CES survey was completed

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-]
<b>Literal question</b>	Date and time when CES survey was completed

### # survey\_end\_month\_CES: Month when CES survey was completed

<b>Information</b>	[Type= discrete] [Format=numeric] [Range= 9-10] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-]
<b>Literal question</b>	Month when CES survey was completed

Value	Label	Cases	Percentage
9		2075	51.6%
10		1946	48.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### # survey\_end\_day\_CES: Day when CES survey was completed

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 1-30] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-] [Mean=15.663 /-] [StdDev=7.643 /-]
<b>Literal question</b>	Day when CES survey was completed

### # num\_attempts\_CES: Number of call attempts to this phone number for CES

<b>Information</b>	[Type= discrete] [Format=numeric] [Range= 1-15] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-]
<b>Literal question</b>	Number of call attempts to this phone number for CES

Value	Label	Cases	Percentage
1		1313	32.7%
2		918	22.8%
3		497	12.4%
4		368	9.2%
5		284	7.1%
6		207	5.1%
7		163	4.1%
8		103	2.6%
9		77	1.9%
10		40	1.0%

12		13	0.3%
13		4	0.1%
14		2	0.0%
15		2	0.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

## File : CES2019PhoneSurvey

### # interviewer\_id\_CES: Interviewer ID for CES

<b>Information</b>	[Type= continuous] [Format=numeric] [Range= 1558-167814] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-] [Mean=105596.815 /-] [StdDev=61520.782 /-]
<b>Literal question</b>	Interviewer ID for CES

### # interviewer\_gender\_CES: Interviewer gender for CES

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-]
<b>Literal question</b>	Interviewer gender for CES

Value	Label	Cases	Percentage
Female		2664	 66.3%
Male		1247	 31.0%
Transgender		110	 2.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### # language\_CES: Language CES survey was completed in

<b>Information</b>	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-]
<b>Literal question</b>	Language CES survey was completed in

Value	Label	Cases	Percentage
1	(1) English	3281	 81.6%
2	(2) French	740	 18.4%
3	(3) Spanish	0	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### # phonetype\_CES: Phone type used to complete the CES survey

<b>Information</b>	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=4021 /-] [Invalid=0 /-]
<b>Literal question</b>	Phone type used to complete the CES survey

Value	Label	Cases	Percentage
1	(1) Landline	1348	 33.5%
2	(2) Wireless	2673	 66.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

### # survey\_end\_PES: Date and time when PES survey was completed

<b>Information</b>	[Type= discrete] [Format=character] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=2889 /-] [Invalid=0 /-]
<b>Literal question</b>	Date and time when PES survey was completed

### # survey\_end\_month\_PES: Month when PES survey was completed

<b>Information</b>	[Type= discrete] [Format=numeric] [Range= -7-11] [Missing=*]
<b>Statistics [NW/ W]</b>	[Valid=2889 /-] [Invalid=1132 /-]
<b>Literal question</b>	Month when PES survey was completed

Value	Label	Cases	Percentage
-7	(-7) Skipped	0
